

# LEONARDO DA VINCI

*My favourite hero is Leonardo da Vinci, he was one of the greatest inventors, painters, writers and architects of Italian Rinascimento.*

*Leonardo was born April 15<sup>th</sup>, 1452 in Vinci a small village.*

*His creations are famous throughout the world. Among them there is the man of Vitruvius or Vitruvian and his military projects such as the tank or machine gun.*

*One of his most famous creations is surely the Gioconda painted in 1506 which is now kept in the Louvre in Paris.*

*Leonardo experienced the first idea of flight, creating the first aircraft, though with limited success.*

*He also took up the study of the human body observing it in all its parts.*

*Leonardo for me is a hero because he is regarded by all as the greatest genius in history and because he was always one step ahead all people in his time.*

*I'm fascinated by him by the mysteries and riddles that are hidden in his work.*

*I like him because he has been a source of inspiration to the generations that have followed him up to the present day.*

*Leonardo is certainly the greatest man in history if not humanity.*
