

IPSIA Carlo CATTANEO

**Preparatory visit for
Comenius Project “Good food –good mood”
Accordo N°: 2011-5-IT2-COM09-31930
25th -29th January, 2012.**

The preparatory visit was held in Schulheim Schloss Kasteln Oberflachs, Switzerland and attended by 12 delegates from : Italy, Germany, Scotland, England, Poland, Sweden, Turkey, Romania , Nederland

The aims of the meeting were:

- **To ensure communication between all potential partners**
- **To discuss the topic “good food-Good mood” and ideas for the project**
- **To decide the methods of dissemination**
- **To work on the form to apply for the funding of a multilateral Comenius project**

In Schulheim Schloss Kastel , a boarding school, we learned more about the teaching to students with special needs in this school and identified a lot of good ideas to integrate the GFGM project in the curriculum. All partners presented power points on their country, their schools and their ideas about the project.....

In Kuttinghen we discussed the application form and got agreements how to work on our topic , how to disseminate and evaluate the project

To know more about Switzerland and the Alps we travelled by train to Scuol where we were informed about the special chances and problems of this area by the director of tourism, Urs Wohler. Afterwards we made a horse sledge ride to a small and authentic restaurant

Bye bye from Switzerland and

.....cross the fingers
